

Proceedings of 6<sup>th</sup> International Conference  
 “Transform Methods & Special Functions, 2011”

---

---

CONTENTS

<i>V. Kiryakova</i>	
On Some of Professor Peter Rusev's Contributions .....	1
<i>L.N. Apostolova</i>	
Hyperbolic Fourth- <b>R</b> Quadratic Equation and Holomorphic Fourth- <b>R</b> Polynomials .....	15
<i>E. Bazhlekova</i>	
Strict $L^p$ Solutions for Nonautonomous Fractional Evolution Equations .....	25
<i>L. Boyadjiev, B. Al-Saqabi</i>	
Solutions of Fractional Diffusion-Wave Equations in Terms of $H$ -functions .....	35
<i>G. Boychev</i>	
Hermite Series with Polar Singularities .....	49
<i>G. Chobanov, I. Dimovski</i>	
Exact Solutions of Nonlocal Pluriparabolic Problems .....	53
<i>B. Datsko, Yu. Luchko</i>	
Complex Oscillations and Limit Cycles in Autonomous Two-Component Incommensurate Fractional Dynamical Systems .....	65
<i>I.H. Dimovski, V.Z. Hristov</i>	
Commutants of the Square of Differentiation on the Half-Line .....	79
<i>I. Dimovski, Y. Tsankov</i>	
Exact Solutions of Nonlocal BVPs for the Multidimensional Heat Equations .....	89
<i>D. Jankov, T.K. Pogány</i>	
Integral Representations of Functional Series with Members Containing Jacobi Polynomials .....	103
<i>S.L. Kalla, N. Virchenko, I. Alexandrovich</i>	
Inverse Problems Involving Generalized Axial-Symmetric Helmholtz Equation .....	113

<i>A.-N. El-Kassar, M. Salameh, M. Bitar</i>	
EPQ Model with Imperfect Quality Raw Material .....	123
<i>V. Krasniqi, F. Merovci</i>	
Some Completely Monotonic Properties for the $(p, q)$ -Gamma Function .....	133
<i>S. Marinković, M. Stanković, E. Mulalić</i>	
The Deformed Trigonometric Functions of two Variables .....	147
<i>I. Matychyn, A. Chikrii, V. Onyshchenko</i>	
Conflict-Controlled Processes Involving Fractional Differential Equations with Impulses .....	159
<i>G.V. Milovanović, A.S. Cvetković</i>	
Special Classes of Orthogonal Polynomials and Corresponding Quadratures of Gaussian Type .....	169
<i>Y. Nikolova</i>	
$\alpha$ -Mellin Transform and One of Its Applications .....	185
<i>T. Odziejewicz, D.F.M. Torres</i>	
Calculus of Variations with Classical and Fractional Derivatives .....	191
<i>J. Paneva-Konovska</i>	
Inequalities and Asymptotic Formulae for the Three Parametric Mittag-Leffler Functions .....	203
<i>Y. Polatođlu, M. Aydođan, A. Yemisci</i>	
Growth Theorem and the Radius of Starlikeness of Close-to-Spirallike Functions .....	211
<i>P.M. Rajković, P. Barry, N. Savić</i>	
Number Sequences in an Integral Form with a Generalized Convolution Property and Somos-4 Hankel Determinants .....	219
<i>M.A. Rakha</i>	
On a Generalization of a Theorem due to Larcombe on the Sum of a ${}_3F_2$ Series .....	229
<i>I. Shilin</i>	
$SO(2, 1)$ -Invariant Double Integral Transforms and Formulas for the Whittaker Functions .....	241
<i>N. Virchenko</i>	
On Some Generalizations of Classical Integral Transforms .....	257
<i>Information on TMSF Conferences and Related Meetings in 2012</i> .....	265
<i>Order Form, Editorial Board</i> .....	267
