

**Списък от всички публикации**  
**на доц. д-р Наталия Кольковска (Дренска)**  
**(м. Юни, 2016 г.)**

1. **N. Drenska**, Об одной задаче сопряжения двух параболических уравнений (A problem in the conjugation of two parabolic equations), **Дифференц. уравнения** (Differential Equations), **15**, 12, 2251-2262, 1979
2. **N. Drenska**, Свойства разностных схем для задачи об остывании металла в форме (Properties of difference schemes for the problem of cooling metal in a mold), **Дифференц. уравнения** (Differential Equations), **16**, 9, 1677-1687, 1980
3. **N. Drenska**, Точность численных алгоритмов для одномерной задачи об остывании металла в формах (Accuracy of numerical algorithms for the one-dimensional problem of cooling of metals in molds), **Вестн. Моск.ун-та. Выч.мат.киб.**(Mosc. Univ. Comput. Math, Cybern.), **4**, 15-21, 1981
4. R. Lazarov, S. Dimova, **N. Drenska**, T. Chernogorova, Математическое моделирование процессов теплообмена и кристаллизации слитков (Mathematical modeling of heat transfer in ingot crystallization), Computational mathematics, Banach Center Publications, **13**, 73-90, 1984
5. **N. Drenska**, Сходимость разностной схемы метода конечных элементов для уравнения Пуассона в метрике  $L_p$  (Convergence of the difference scheme of the finite element method for the Poisson equation in the metric  $L_p$ ), **Вестн. Моск.ун-та. Выч.мат.киб.** (Moscow University Computational Mathematics Cybernetics), **3**, 19-22, 1984
6. **N. Drenska**, Сходимость в метрике  $L_p$  разностной схемы метода конечных элементов для эллиптического уравнения с постоянными коэффициентами (Convergence in the metric  $L_p$  of the difference scheme of the finite element method for an elliptic equation with constant coefficients), **Вестн. Моск.ун-та. Выч.мат.киб.** (Moscow Univ. Comput. Math. Cybern.), **4**, 9-13, 1985
7. **N. Drenska**, Сходимость разностных схем метода конечных элементов для эллиптических уравнений в дискретной  $L_p$  –норме (Convergence of finite difference schemes for elliptic equations in the discrete  $L_p$  norm), Труды международной конференции по численным методам и приложениям (Numerical Methods and Applications, Proceedings of the International Conference on Numerical Methods and Applications – Sofia, 1984), 265-270, 1985
8. **N. Drenska**, Convergence of the difference scheme of the finite element method for the Poisson equation in a discrete  $L_p$  norm, “Constructive function theory, Varna-1984”; 306-311, 1985
9. **N. Drenska**, Разностные схемы для энтальпийной постановки одномерной задачи о кристаллизации металла в форме (Finite difference scheme for the enthalpy formulation of the one-dimensional problem of cooling metal in mold), Численные методы и пакеты программ для решения уравнений математической физики (Numerical methods and packages for solving problems of mathematical physics, Comput. Center Acad. Sci. USSR, Novosibirsk), 3-9, 1985

10. **N. Drenska**, V. Manolov, Z. Rashev , Влияние теплофизических характеристик изоляции прибыли на кристаллизацию стального слитка весом 10 тонн (Influence of the thermal parameters of the isolation on the crystallization of the steel ingot), Материали на 5 конгрес по механика Варна 1985 ("Proceedings of the 5 Congress of Mechanics – Varna, 1985"), **2**, 669-674, 1985
11. **N. Drenska**, Numerical method for solving elliptic equations of fourth order, "Proceedings of the International Conference on Numerical Methods and Applications, Sofia -1988", 137-140, 1989
12. **N. Drenska**, Numerical method for solving an elliptic equation of fourth order, **Serdica**, **15**, 4, 108-113, 1989
13. **N. Kolkovska**, Computation of potentials used in the BEM, "Colloquia Math. Soc. Janos Bolyai, **59**, Numerical methods, Miskolz", North -Holland, 157-163, 1991
14. **N. Kolkovska**, Reconstruction of some potentials, used in the Boundary Element Method, **Journal of Integral Equations and Applications**, **3**, 345-367, 1993
15. **N. Kolkovska**, Numerical Methods for Computation of the Double Layer Logarithmic Potential, Lecture Notes in Computer Science, **LNCS**, **1196**, 243-249, 1997, **IF** 0.872
16. **N. Kolkovska**, A finite difference scheme for computation of the logarithmic potential, in "Finite Difference Methods: Theory and Applications", "Nuova Science" USA, 139-144, 1999
17. **N. Kolkovska**, Fast numerical evaluation of the simple layer logarithmic potential, Recent Advances in Numerical methods and Applications, World Scientific, Proceedings of the 4 Conference on Numerical Methods and Applications, Sofia, 569-575, 1999
18. **N. Kolkovska**, An economic method for evaluation of volume integrals, Lecture Notes in Computer Science, **LNCS**, **3401**, 360-367, 2005, **IF** 0.402
19. **N. Kolkovska**, Numerical solution of an elliptic problem with a non-classical boundary condition, Lecture Notes in Computer Science, **LNCS**, **4310**, 623-627, 2007, **SJR** 0.311
20. **N. Kolkovska**, On the numerical solution of a stationary two-phase Venttsel problem, Proceedings of the 2<sup>nd</sup> Annual Meeting of the Bulgarian Section of SIAM, 26-29, 2007
21. I. Avramov, Ch. Russel, **N. Kolkovska**, I. Georgiev, Crystallization kinetics and network rigidity, **J. Phys.: Condens. Matter**, **20**, 335203, 4pp, 2008, **IF** 1.9
22. **N. Kolkovska**, R. Slavchov, D. Vasileva, On the numerical simulation of surface forces acting on AFM tip, Proceedings of the 3<sup>rd</sup> Annual Meeting of the Bulgarian Section of SIAM, 57-61, 2009, ISSN 1313-3357
23. **N. Kolkovska**, Two Families of Finite Difference Schemes for Multidimensional Boussinesq Paradigm Equation, **AIP CP** **1301**, 395-403, 2010, **SJR** 0.148
24. **N. Kolkovska**, Convergence of Finite Difference Schemes for a Multidimensional Boussinesq Equation, Lecture Notes in Computer Science, **LNCS**, **6046**, 469-476, 2011, **SJR** 0.343
25. Christov C.I., **Kolkovska N.**, Vasileva D., On the Numerical Simulation of Unsteady Solutions for the 2D Boussinesq Paradigm Equation, Lecture Notes in Computer Science, **LNCS**, **6046**, 386-394, 2011, **SJR** 0.343

26. N. Kutev, **N. Kolkovska**, M. Dimova and C. I. Christov, Theoretical and numerical aspects for global existence and blow up for the solutions to Boussinesq Paradigm Equation, **AIP CP**, **1404**, 68-76, 2011, **SJR** 0.146
