

Contents

Enhanced Asymptotic Approximation and Approximation of Truncated Functions by Linear Operators U. ABEL AND M. IVAN	1
Averaged Moduli of Smoothness on the Plane and Runge-Kutta Methods A. ANDREEV AND M. NIKOLTJEVA-HEDBERG	11
LULU Operators and Locally δ -monotone Approximations ROUMEN ANGUELOV	22
Algebraic Operations on the Space of Hausdorff Continuous Interval Functions R. ANGUELOV, S. MARKOV AND BL. SENDOV	35
Interpolation of Besov and Sobolev Spaces in the Non-diagonal Case I. ASEKRITOVA AND N. KRUGLJAK	45
What Are the Limits of Lagrange Projectors? C. DE BOOR	51
Mean Square Approximation by Minimum Norm Interpolation F.-J. DELVOS	64
Interpolation of Rational Functions on a Geometric Mesh D. K. DIMITROV	73
A Characterization of Weighted L_p -Approximations by the Gamma and the Post-Widder Operators B. R. DRAGANOV AND K. G. IVANOV	80
Characterizations of Weighted K -Functionals and Their Application B. R. DRAGANOV AND K. G. IVANOV	88
Minimal Points and Contractive Projections P. ENFLO	98
A Characterization of the Existence of Statistical Limit of Measurable Functions Á. FEKETE	104
On Convergence Properties of Logarithmic Means of Walsh-Fourier Series G. GÁT	113

About a Result of Tiberiu Popoviciu	
I. GAVREA	121
On Recovering of a Bivariate Polynomial from Its Radon Projections	
I. GEORGIEVA AND S. ISMAIL	127
Leja Points for Cantor-Type Sets	
A. GONCHAROV	135
On Rational B-Spline Functions	
H. GONSKA, D. KACSÓ AND P. PIȚUL	145
Eigenfunctions and Eigenvalues for Some Durrmeyer-Type Operators	
M. HEILMANN	158
A Pompeiu-Type Mean-Value Theorem	
M. IVAN AND U. ABEL	168
Sharp Inequalities for Hermite Polynomials	
I. KRASIKOV	176
Inequalities for Pseudo-Dimension Widths	
Y. MALYKHIN	183
Weighted Markov Inequalities on Infinite Intervals	
L. MILEV AND N. NAIDENOV	187
On the Markov Inequality for Tchebycheff Systems	
N. NAIDENOV	194
Polynomial Inequalities of Markov and Duffin-Schaeffer Type	
G. NIKOLOV	201
On the Discriminants of the Hypergeometric Polynomials from the Askey Scheme	
I. NIKOLOVA	247
Behaviour of Trigonometric Polynomials with Only Real Zeros Near a Critical Point	
M. A. QAZI AND Q. I. RAHMAN	257
Geometric Aspects of Minimal Projections onto Planes	
B. SHEKHTMAN AND L. SKRZYPEK	267
Relative Widths of Classes of Differentiable Functions and Splines	
YU. N. SUBBOTIN AND S. A. TELYAKOVSKII	278
