

Общ списък на публикациите на д-р Антони Рангачев

Bengus-Lasnier, A., Gaffney, T., Rangachev, A., *A multiplicity formula for the Milnor number of a smoothable curve* (under review).

<https://arxiv.org/abs/2310.16558>

Rangachev, A., *Local volumes, equisingularity and generalized smoothability*

<https://arxiv.org/abs/2105.08749> (under review).

Gaffney, T., Rangachev, A., *Pairs of modules and determinantal isolated singularities*

<https://arxiv.org/abs/1501.00201> (submitted).

Rangachev, A., *A valuation theorem for Noetherian rings*, Michigan Math. Journal, vol. **73**, issue 4, 2023, 843-851.

Rangachev, A., Marinov, G., Mladenov, M., *The impact and progression of the COVID-19 pandemic in Bulgaria in its first two years*, Vaccines **2022**, 10 (11): 1901. In the special issue "SARS-CoV-2 Variants Research and Ending the COVID-19 Pandemic".

Marinov, G., Mladenov, M., Rangachev, A., Alexiev, I., *SARS-CoV-2 reinfections during the first three major COVID-19 waves in Bulgaria*, PLoS ONE 17(9): e0274509.

Rangachev, A., *The evolving notion of multiplicity*, Proceedings of the Fifty First Spring Conference of the Union of Bulgarian Mathematicians, 89-99, 2022.

Rangachev, A., Marinov, M., Mladenov, M., *The demographic and geographic impact of the COVID pandemic in Bulgaria and Eastern Europe in 2020*, Scientific Reports **12**, Article number: 6333 (2022).

Rangachev, A., *Associated primes and integral closure of Noetherian rings*, Journal of Pure and Applied Algebra, **225** Issue 5, 2021.

Gaffney, T. and Rangachev, A., *The A_f condition and relative conormal spaces for functions with non-vanishing derivative*, Int. J. Math. vol. 30, no. 10, 2019.

Rangachev, A., *Associated points and integral closure of modules*, Journal of Algebra, **508** 2018, pp. 301-338.

Rangachev, A., *On the solvability of p -adic diagonal equations*, MIT UJM **8** 2007, pp. 111-124.

Dimitrov, V., Rangachev, A., *Some sufficient conditions for the solvability of p -adic polynomial equations*, Proceedings of the Thirty Fourth Spring Conference of the Union of Bulgarian Mathematicians, 2005, 102--107.
