# Main aims of the network

- enhance and support PD activities across Europe
- draft common standards and guidelines based on research and including evaluation
- strengthen the voice of PD centres on the implementation and practice-side
- strengthen the voice of PD centres at the local as well as the international level
- foster an upward influence of PD Centre's work towards the policy level
- contribute to scaling-up teacher PD by cooperation between the most important actors – PD centres, universities and researchers in the field, schools and teachers as well as the policy-making entities
- address young STEM teachers (and) researchers to foster their engagement in PD
- share experiences, practices & materials
- enable an exchange of teacher educators between institutions
- share outcomes of research relevant to PD activities
- create conditions for sustainable PD
- make PD activities sustainable
- exchange different PD approaches
- seek collaboration between research and practice

# Planned activities of the network

- organize regular meetings to work towards common aims
- draft Common Standards and Guidelines for PD (planning, delivery, implementation and evaluation to maximise impact and sustainability of learning outcomes)
- provide information about European PD centres and their activities
- share concepts, practices and research results to improve PD approaches
- exchange experiences and materials to support high-quality STEM PD
- exchange staff and PhD students
- establish strong connections to research and policy
