

**Second Conference of the Euro-American Consortium  
for Promoting the Application of Mathematics in Technical and  
Natural Sciences (AMiTaNS)**

**Sozopol, Bulgaria, June 21-26, 2010**

**Call for Papers and Special Sessions**

The Euro-American Consortium for Promotion of the Application of Mathematics in Technical and Natural Sciences is pleased to announce its Second AMiTaNS Conference to be held again in Sozopol, which is one of the most famous Bulgarian resort cities at the Black Sea coast.

The conference will be scheduled in plenary and keynote lectures followed by special and contributed sessions. The accents of the conference will be on Difference and Spectral methods; Applied Analysis, Biomathematics, Continuum Mechanics, which can be complemented by new topics. You are welcomed to announce and organize special sessions that should be within the general topic of the conference. Everybody, who is interested in attending AMiTaNS'10, please prepare a short abstract within 300 words clearly stating the goal, tools and results and submit it by e-mail, filling also the online Application form.

**Deadline** for both submissions: **March 31st, 2010.**

**Website of the conference:** <http://2010.eac4amitans.org>

**E-mail** for contacts and submissions: **conference@eac4amitans.org**

The 1st AMiTaNS Conference was very successful. One can find about it at [2009.eac4amitans.org](http://2009.eac4amitans.org). The proceedings have already been published by AIP Conference proceedings, Vol. 1186.

**Proceedings** of the 2nd AMiTaNS Conference will be published again as a volume of the Proceedings Series of the American Institute of Physics (AIP). All papers will be refereed.

On behalf of the Organizers,

*Christo I. Christov, University of Louisiana at Lafayette, USA*  
*Michail D. Todorov, Technical University of Sofia, Bulgaria*
