

fractional Calculus & Applied Analysis

An International Journal for Theory and Applications

VOLUME 13, NUMBER 3 (2010) ISSN 1311-0454

RUDOLF GORENFLO's 80th BIRTHDAY ANNIVERSARY

Dr. Rudolf Gorenflo, Prof. Emeritus at Free University of Berlin and Honorary Member of "FCAA" Editorial Board, is born 31 July, 1930.

The special issue of this journal, FCAA, Vol. 3, No 4 (2000), contained detailed biographical data for Prof. Gorenflo, visit also Web site <http://www.fracalmo.org/gorenflo/index.htm>.

Dear Prof. Gorenflo,

We would like to pass you and your family our sincere best regards and wishes for health and enthusiasm to serve to the mathematical community and specially, to our family of the "fractional analysts"! We consider you as one of the respected fathers in our family who helped a lot, not only to many of us to grow as authors in the field, but also for your strong support to the idea to start the "FCAA" Journal, and to its development during the 13 years (1998-2010). We passed through all the difficulties to run a new and a closely specialized journal and to impose its important role among the already existing ones. Thanks for all your help and efforts, as a moral supporter, wiser advisor, authors' helping hand, hard worker and one of the most frequent reviewers.

Happy 80th Birthday! Many happy returns!

On behalf of the Editorial Board of FCAA,

Virginia Kiryakova, Managing Editor
