

GHEORGHE OROS' 60th BIRTHDAY ANNIVERSARY

Gheorghe Oros was born in 1950, in Ciuhoi, a small village in the west part of Romania. He spent his primary and secondary school years in his village. He went to high school in Oradea, at one of the oldest and well-known high schools in town, Emanuel Gojdu, which he graduated in 1969.

He began studying mathematics at Pedagogical Institute of three years in Oradea, which he graduated in 1972. He completed his studies at Babes-Bolyai University Cluj-Napoca, Faculty of Mathematics, where he was a student between 1972 and 1975.

Gheorghe Oros started teaching at a secondary school in a village close to his native place, then moved to Alesd High School where he was a teacher between 1976 and 1994. As University of Oradea was founded in 1990, he gave classes there and in 1995 passed an exam and got a permanent position as a lecturer in Department of Mathematics of this university. The same year, he started his PhD program at Babes-Bolyai University under the supervision of Academician Professor Petru T. Mocanu. He obtained his PhD degree in 1998 with the paper called "Contributions to the geometric theory of analytic functions". In 1999, G. Oros became associated professor and then a full professor in 2001 at University of Oradea.

Prof. Oros published 33 peer-reviewed papers until 2001 when he became a full professor and over 50 more ever since. His papers are cited by many authors. He also published 11 books in the field of Complex Analysis. He is a member of the Editorial Board of *University of Oradea's Mathematical Journal*, *Analele Universitatii Oradea*, *Fascicola Mathematica* and also acts as a referee for many international journals.

An important part of his research activity is related to the school of Geometric Function Theory started by Professor Petru T. Mocanu at Babes-Bolyai University, Cluj-Napoca.

Prof. Oros also supervises students during their preparation of graduation papers and high school teachers in obtaining their professional degrees.

Our congratulations to Gheorghe Oros and best wishes for success in his future work, health and happiness!

On behalf of his friends, colleagues and disciples
