

## LETTER

by Stefan G. Samko

For possible readers, I would like to note that some mistake happened in a reference in some of my papers. In particular, in the papers:

"Some applications of potentials and approximative ..." (with V.A. Nogin, *FCAA*, vol. **2**, No 2 (1999), 205-228);

"On approximative definition of fractional differentiation" (with N. Samko, *FCAA*, vol. **2**, No 3 (1999), 329-342);

there was made a reference to the book:

S. Samko, "*Hypersingular Integrals and Their Applications*". Gordon & Breach Sci Publ., Ser. *Analytic Methods and Special Functions*, vol. **3**, London - N. York (1999),

which is wrong and the correct reference is:

S. Samko, "*Hypersingular Integrals and Their Applications*". Gordon & Breach Sci Publ., Ser. *Analytic Methods and Special Functions*, vol. **5**, London - N. York (2000).

The author is sorry for this mistake. It happened because the data of publication of the book, already known at the time when the papers were submitted, was changed by the Publishing House (Gordon & Breach Sci. Publ.).
