

**CORRECTION to Figure 4 in:
“GEOMETRIC AND PHYSICAL INTERPRETATION
OF FRACTIONAL INTEGRATION AND
FRACTIONAL DIFFERENTIATION”**

Igor Podlubny *

published in:

Fractional Calculus & Applied Analysis **5**, No 4 (2002), 367-386

Due to Editor's failure, a very unfortunate mistake has appeared in the printed version of Igor Podlubny's paper in previous number of "FCAA" Journal. Namely, Fig. 4 on page 374 is identical with Fig. 2 from page 371.

Here is given the *correct Figure 4* that should be considered instead of previously published on page 374.
